## Engineer's Report On Town's Proposed Sewerage System

To the Mayor and Council,  
Town of Coleman, Alberta,  
Gentlemen,

In accordance with your instructions, a detailed investigation has been made as to the feasibility and cost of a sewer system to serve the central business area of the town, and as to the feasibility of future extensions of the system to West Coleman and other parts of town, and we now beg to submit the following report.

The Town of Coleman rises steeply from south to north and falls from Central Avenue both easterly and westerly.

The main sewer will therefore require to flow "eastward" on First Street. This is quite feasible, but it places limits on the future extension of the gravity system. West Coleman, and the blocks west of Paulson Avenue would require to be brought in by pumping. This western area can be served by a gravity sewer along the south side of Highway No. 3, which would discharge to a pump station to be located south of Block 9, near Granby Street.

The portion of the system proposed for present construction is shown in color on the accompanying plan. This would include a 10-inch main intercepting sewer along First Street from Central Avenue to Victoria Avenue. A branch sewer on Central Avenue from the schools would connect at the upper end. By deepening this sewer to a maximum of 11½ feet at Central Avenue, it is possible to extend an additional block on First Street to Paulson Avenue. At the latter point the sewer will unavoidably be only 6 feet deep, but there are no deep basements near this point, and this sewer would be quite serviceable.

It is proposed to locate the disposal works on the island formed between the river and the overflow channel, at the point shown on plan. The flow of water around the island can be stopped by constructing a small earth dam at the narrow neck, about 300 feet south of First Street South.

The disposal works would consist essentially of a concrete covered sedimentation tank, divided into two sections, with provision for the sludge. As there is not sufficient fall for gravity discharge of the sludge, provision has been made for a small motor-driven sludge pump, which would pump the sludge to open sludge drying beds to be located at a suitable point on the island. The effluent from the sedimentation tank would be discharged by a 12 inch pipe line to the river as shown on plan.

The estimated cost of the proposed sewerage system is shown in detail on the attached Table No. 1, and amounts to a total of \$32,842.

The proposed plant and system will be extremely simple, and comparatively inexpensive to operate. Consumption of power for pumping sludge will be very small. Operation would be a part-time procedure, requiring only a short daily visit to the plant for cleaning of screens, and occasional pumping of sludge. Two or three times a year it would be necessary to remove the dried sludge from the beds and to dispose of it in suitable parts of the island. As self-cleaning gradients have been designed for the sewers, little if any cleaning of sewers should be necessary. It is apparent that the project can be made self-liquidating by means of frontage tax of 10 cents per foot, together with a domestic service charge of \$2.00 per month, and a moderate scale of rates for commercial and institutional services.

The prices used for trenching and other construction cost are

considered sufficient for the class of excavation which is expected to be encountered. Labor costs are based on average prices for similar work. These prices are, however, subject to revision if the work should be deferred for any length of time, or if the mine scale of wages should apply to such work in Coleman.

Respectfully submitted,  
HADDIN & MILES, LIMITED.

Table No. 1. Estimate of Cost of 15" Main Outfall Sewer, from Disposal Plant Site, along First St. South, and across Highway to Highway No. 3, including Manholes and fill over sewer where necessary	
15" Outfall and Intercepting sewer in Highway No. 3, from railway crossing to intersection of Victoria Ave. and 1st St.	\$ 8,900
10" Intercepting sewer in 1st St. from Victoria to Central Avenue	2,497
8" Branch sewer in Central Avenue from 1st St. to 8th Street	3,172
8" Branch sewer in 1st St. from Central to Paulson Avenue	1,266
50 Service Connections to property line	777
Sewage Disposal Plant, Sludge Pump, and Sludge Drying Beds	3,300
12" Effluent Discharge Pipeline, from Disposal Plant to River	11,143
TOTAL estimated cost of Sewerage System	32,842

Note: The above figures include an allowance of 10% to cover cost of contingencies, supervision and overhead.

## Louie Llewellyn Past Away In Calgary Hospital

Funeral Held Here This Afternoon; Had Worked in S. Diamond Mines and Was Veteran of Boer War

The death occurred in a Calgary hospital on Monday of Louie Gwyllian Llewellyn, 87, formerly of Coleman and who has been in Calgary since the death of the past few years.

Deceased had been ill for the past two years and had suffered a great deal. The body was brought to Coleman today and graveside services were held in Coleman Union cemetery where interment was made.

A number of years ago deceased, his wife and son, both of whom had pre-deceased him, resided in Coleman in a home in Cardonville. He was quite active in the Boy Scout movement, and was a scout master at one time.

Born in Wales he travelled to South Africa where he took part in the Boer war and later worked the diamond mines there. He never tired of relating his South African experiences.

He came to Canada in 1909 and to Alberta a year later settling in Lethbridge.

Surviving are a son, William, and three grandchildren, and two great-grandchildren.

CARD OF THANKS  
We wish to express sincere thanks to our friends who gave their kindness, sympathy and beautiful floral offerings during the illness and death of our husband and father, John Llewellyn. We especially wish to thank Dr. E. J. Liesemer, pallbearers and the National Slovak Mutual Benefit Society.

Mrs. Mary Mizersa  
and Josephine

## MODERN ELECTRIC TO HAVE ENLARGED DISPLAY SPACE

Carpenters and painters are busy in the Modern Electric store enlarging the floor space, building modern display shelves and painting the new woodwork preparatory to taking out a rear wall in the interior of the store to perfect great display floor space. The work is expected to be completed within the next week.

Mr. Montalbetti stated that owing to increase stock he has his present floor space inadequate. As a result he built on a warehouse to the rear of the building and the space formerly occupied by surplus stock is being utilized for additional display space. Christmas stock is arriving daily and he hopes to be able to departmentalize his stock this season in order to make shopping easier for the customers.

## ASSOCIATION SECRETARY

LORENZO C. RICHARDS who on Sunday evening was appointed secretary of Coleman Sports Association. He is at the present time treasurer of the Association. Mr. Richards is keenly interested in the maintenance of sport in Coleman and during the past several years has worked hard, through the Association, to keep Coleman in the forefront of Pass sport.

## SEARCH STILL BROUGHT NO RESULTS SUNDAY

It is estimated that approximately 100 men from Coleman, Blairmore, Pincher Creek, Cardston, Hillspring and Lethbridge congregated at Strawberry Lake on Sunday and searched vainly throughout the day for the body of Ernie DelPoppo, presumed drowned in the lake as the result of a hunting accident last Oct. 11.

Waded by the thousands are said to be the main reason why the body still remains undiscovered.

## Bellevue Lions Won Over Medicine Hat

Packed Too Much Power for Joe Fisher's Crew; Antonenko and Kovacki Show to Advantage

Bellevue Lions started out on the right foot last Saturday night when they won their first game of the Western Canada Junior hockey league by thoroughly trouncing Joe Fisher's Medicine Hat Tigers 7-3.

The Lions, coached by R. Kwassie, appear to have some good material and which, properly handled, will give the Pass worthy representation in the league.

Visibly nervous at the start, the Lions found themselves two goals down in the first five minutes of play. They gradually gained confidence and soon were holding their own. The "shot in the arm" play came at the fifteen minute mark when Hass scored on Scodellaro's assist. Scodellaro remained in the first period when Scodellaro tied the score.

Alex Kovacki put the Lions ahead in the second period on a quick shot in front of goal. On the third Lions were always in the driver's seat and rattled home four goals off the sticks of Kubasek, Pachai, Branson and Antonenko. The Hass scored through Clouston.

Antonenko was worked both as a first string forward and as a defenceman during the game and handled himself well. He has lots of confidence in his own ability and never hesitates when checking the opposition.

## Funeral Mrs. M. Stansfield Held On Saturday

First Came to Coleman in 1924; Had Resided at Edmonton and Vancouver; Suffered Illness of Several Months

The funeral of Mrs. Marion Stansfield, 45, who passed away at Vancouver on Sunday, Oct. 17, was held in Coleman on Saturday afternoon. The body arrived from the west coast city that day and taken to the home of deceased's brother, Mr. Ernest Hill, of Fifth street.

Prayers were said in the home where the funeral services were conducted in St. Alban's church by Rev. A. S. Dewdney. Interment was made in Coleman Union cemetery.

Pallbearers included J. Goulding, W. Poxton, A. Fauville, W. Martland, B. Bond and H. Harris.

Deceased was born in Yorkshire, England, where she grew into young womanhood. She was a nurse-in-training when in 1924 she came to Canada with her parents and brother. She married in 1924 and resided in Coleman until 1929. She then took up residence in Edmonton where she resided until 1940 when she moved to Vancouver. Coleman however always remained home to her.

Last May she took seriously ill and underwent a major operation in June from which she never fully recovered. Before her sickness she was nursing at Larwood hospital, Vancouver.

Last August she again became seriously ill and Mrs. Hill, who had travelled to Vancouver in June, was called to the west coast city. She rallied sufficiently after a few weeks to permit Mrs. Hill to return home. On Sunday, October 17 Mrs. Hill received the wire of her passing.

In obedience of her last wish she was brought home to Coleman to be buried alongside her parents in the family plot.

Surviving are two sons, William and Ernest and a daughter, Doreen, all of Vancouver. Mr. and Mrs. William Stansfield travelled to Coleman to attend their mother's funeral.

## CARD OF THANKS

Mr. and Mrs. Ernest Hill wish to thank their many friends and neighbors for their sympathy and floral offerings, cards of sympathy and for the gifts which were given them in the loss of their beloved sister, Marion Stansfield. Thanks is also extended to the Pallbearers and to those who loaned cars.

## Hockey Club To Operate This Season; Feature Exhibitions

Will Have a Practice Shortly on Bellevue Ice; Executive to be Chosen at Later Date

Coleman Grands hockey club held a meeting on Sunday to arrange to talk over plans for the forthcoming season.

Missing from the lineup this season will be three of last year's young stars, Teddy Kryzka, who is attending the University of Alberta, and Alex Kovacki and Rick Antonenko who have signed with Bellevue Lions, an entry in the Western Canada Junior Hockey league.

It was agreed that there was sufficient hockey ivory still in town to form a strong team and that every effort be made to keep intermediate hockey in the forefront of local winter sports. Club president L. S. Richards has arranged with the Bellevue Artificial Ice Arena official to have Grands get in a practice within the next two weeks.

The appointment of a coach is being left in the hands of the players themselves. The team's executive will be appointed at a later date.

Exhibition Games  
According to Mr. Richards it is not likely that a league will operate in the Pass this winter. As a result thought is already being given towards bringing in a number of outstanding clubs such as those from Canmore, Calgary, Great Falls and Kimberley. In this manner much better hockey will be played for the Pass fans.

## THREE BIKES IMPOUNDED FOR INFRINGEMENT OF TRAFFIC LAWS

Constable Wm. Antle has impounded three bicycles for ten days having taken the machines from their youthful owners for infraction of the traffic laws.

All machines MUST BE equipped with a lead light and rear reflector, riding "doubledecker" will not be permitted and no one is permitted to ride their machine on the sidewalks.

It is to be regretted that the youngsters have to be temporarily deprived of their machines, stated Constable Antle, but the time has arrived when this action is necessary to impress on the minds of the parents the risk and danger of permitting their children to ride their bicycles at night without the proper lighting precautions.

## Plan On Organizing Pass Brass Band

Mayor Frank Abousaffy has been approached by parties interested in organizing a Pass brass band for the enjoyment and benefit of Pass citizens generally.

It appears that the initial move is being made in Bellevue where Mr. Wm. Goodwin, former leader of the West Canadian Colliers brass band, is interested in organizing the Pass band.

Last week an appeal was made to local men who were former members of the Coleman brass band who had instruments belonging to the band in their possession to turn them in to the town office. Up to Tuesday morning only one instrument had been turned in.

It will be to the benefit of all persons interested in organizing a band to get behind this movement and give it their support.

## BACHELOR OF EDUCATION

Miss Ines D'Appollonia, second daughter of Mr. and Mrs. D. Appollonia, who has received her degree of Bachelor of Education from the University of Alberta.

Miss D'Appollonia gained her public and high school education from the local schools and her many friends join in extending their congratulations.

## Coleman Students Gather In Strength At University Of Alberta This Term; Engineering Most Popular Course

Each year more and more Colemanites are added to the files of the University of Alberta. Among the freshettes this year are Isobel Ewing in Household Economics and Elaine Maclean in B.Sc. Nursing. Engineering has proved to be the most popular course among the men and in the first year are Edmund Abousaffy, Vince Hubert, Ken Short and a former Colemanite, Glenn Fraser, now of Edmonton.

A beginner in the Faculty of Commerce is Teddy Kryzka. George Dibblee is representing Coleman at U.B.C. in his first year of pre-medicine.

After a year as a bewildered freshman, we become upper classmen. The Sophomores are second year students in a four-year course. The Juniors are second year students in a three-year course or third year students in a four-year course. Under-graduating Seniors entail those students who are taking a five-year course or longer and are in their third or fourth years.

We find two Education students in their Sophomore year—Winnifred McIntyre and Peter Antonenko (Faculty of Education, Calgary).

The representation of Coleman is found in the Junior class. The ever-popular Faculty

## Arena Roof Repairs Cost \$3,041.33

New Executive Appointed to Office; Only Few Interested Sportsmen Attending Semi-Annual Sports Association Meeting

Coleman Sports Association held its semi-annual meeting in the Grant Union hall on Sunday evening. A new executive was voted into office and includes Union representatives: C. Jenkins, J. Kilgannon, C. Roughhead and O. Bomben; Council: J. Ramsay and Ed Wood; Board of Trade, N. Nicholas, O. Celli; Companies, C. D. Rogers and C. Richards; School, R. Spillers.

The cost of repairing the skating arena roof was discussed. It was revealed that \$3,041.33 was spent on material, \$1500 of which was received as a donation from Coleman Civic Centre.

Contrary to popular belief no contract to repair the roof had been awarded. Contractor O. Celli gave his time and labor gratis and in addition supplied all material at cost.

Nick Nicholas' appeal to be relieved of the secretary's duties fell on sympathetic ears with the result that he was permitted to become a committee member "at leisure". L. C. Richards was prevailed upon to accept the secretary's duties in addition to the duties of treasurer.

A hearty vote of thanks was passed by the meeting to all those who had helped in the spirit of community co-operation made it possible to build up a skating arena roof which is expected to be trouble free for a great many years. Particular thanks was extended to Contractor Celli who gave his invaluable experience and help to make the necessary repairs.

## Forest Reserves Are Closed As Fire Precaution

A complete closure to travel of the Crosses Nest, Bow River and Clearwater forest reserves was ordered Monday by Hon. N. E. Tanner, provincial minister of lands and mines on the recommendation of the Eastern Rockies Forest Conservation Board.

The travel ban was ordered due to the severe fire hazards which have increased with the current dry weather and it is to remain in force until further notice.

One man has been accommodated in the apartments above the town hall. Others who have been accommodated but unfortunately could not speak English hence would be unable to answer the telephone should a fire alarm be sent out or converse with anyone who might run in with the alarm to the depot.

Of Engineering claims Vans Hubert, Glynn Parry, Ernest Belik and Joe Badzioch as ardent students. Two in Education are Eira Jones (now of Clareholm) and Ray Nadeau (husband of Margaret Smith). The other Juniors include Bernard Macdonald in Arts, Gino D'Appollonia in Arts and Science and Ken Kettys in the Faculty of Medicine.

Among the Under-graduating Seniors are the other members of the Kettys family: Cathie in Nursing and Ross in Dentistry.

Graduating with the Seniors this year are the University of Alberta, eight will be from Coleman. In the Faculty of Arts and Science are Louise Abousaffy, Corinne Fraser (now of Edmonton) and Peter Bakaj. And again the Engineering Department takes its toll, turning out three Engineers in the persons of Billy Milley graduating in Civil Engineering, Jack McIntyre, a Mining Engineer and David Smith, Coleman will now have one full-fledged lawyer—Owen Jones, and a degree nurse, Grace Pettifor, now of Maple Creek, Saskatchewan.

So we can easily see that in the field of higher learning, Coleman will rank among the best.

BUSINESS: Making Arrangements for Season's Play

## A Need For Action

FROM THE FOOD AND AGRICULTURE Organization of the United Nations there has recently come another warning in regard to the need for immediate action in increasing world food production. It is predicted that unless effective planning is done, within the next twenty years half of the people in the world will be subject to diseases associated with diet deficiencies, and to premature death. While the population of the world has increased by 150,000,000 during the past ten years, during the same period food production has decreased by eight per cent. If food production had increased in proportion to the growth in population, it should have advanced by more than sixteen per cent. Sir John Boyd Orr, formerly the head of the Food and Agriculture Organization, and a foremost authority on world food problems has described the present situation in regard to this matter as "the death march of our civilization".

### Canada Also Has Problem

While the prospect of a serious shortage of food within the next two decades is alarming, what is considered to be equally serious is the rate at which present productive areas are deteriorating due to soil erosion, bad methods of farming, floods, pests and other forces which destroy crops. In the United States, more than three billion tons of top soil are believed to be lost each year, and in Canada it is well known that we have a serious problem in retaining the fertility of the great farming areas which contribute so much to world food supplies. In China, the Yellow River annually carries away more than 300,000 acres of farm land while in Africa jungles are said to be spreading, and in South America and Australia desert areas are increasing in extent.

### Should Farm More Land

The obvious answer to the problem of a serious food shortage is to increase production. In order to do this it will be necessary not only to preserve our present farm lands, but to bring more and more acreage under cultivation. This would mean the spending of large sums of money, and a great co-operative effort among all food-producing countries. Prevention of soil erosion, reclamation of desert lands, irrigation, insect control, reforestation and other problems of this kind would have to be studied, and effective measures planned to deal with them. At this time, when there are so many grave and complex problems facing all the nations, the members of the Food and Agriculture Organization are of the opinion that too little attention is being given to the vital question of food production. They have given warning that it is of the utmost importance to the world at this time that there should be no delay in recognizing this fact, and taking constructive action.

### NEW RADIO RESEARCH STATION FOR THE PAS

THE PAS, Man.—Establishment of a new radio research station on the outskirts of The Pas, to undertake a two-year program of ionospheric and atmospheric research, is planned for January by the National Research Council of Canada.

The research station will be manned by experts of the transport department, and will be in charge of H. L. Corbett of Ottawa.

### HEART DISEASES, CANCER TOOK BIGGEST TOLL

OTTAWA.—Of the 41 specified causes of death, heart diseases and cancer took the biggest toll in 1947. The Bureau of Statistics reported.

The Bureau said 117,565 persons died in Canada last year, of that number heart diseases took 32,022 and cancer another 15,605.

When suddenly frightened or angered, a deer can cause serious damage to his hoofs.

Six religious denominations permit women to be ordained. 2800

## How To Get Quick Relief From Sore, Painful Piles

I can help most pile sufferers. I believe I can help you too if you want relief from the itching soreness and burning pain of piles. My Hem-Roid treatment is different. Hem-Roid is an internal medicine—a small tablet taken with a glass of water. It corrects the conditions inside your body that cause you such intense pile soreness and pain. With you, Hem-Roid acts to help some pile sufferers more than others so I want to protect those who are not satisfied. I refuse to ask people to pay for something that does not help them as much as they expect it to. If Hem-Roid helps you, surely it is worth the small cost. Otherwise I want you to have your money back. I'll take your word. I find people are honest about such things. All I ask is you use Hem-Roid as directed for 10 days. Then if you are not satisfied return what you did not use and get your money back. This is an unusual offer but Hem-Roid is an unusual medicine. It has been sold on a refund promise for over 40 years. I am not asked to make many refunds so it must help most folks who use it. At all drug stores.

## Churchill Port Sets Wheat Export Record

CHURCHILL, Man.—Thirty-five ships, 15 of them overseas cargo vessels, have touched this port during the 1948 navigation season which ended Oct. 15.

The Canadian wheat board announced in Winnipeg that 5,314,342 bushels of wheat were exported from Churchill for a port record. The last cargo vessel cleared the port Oct. 8. The 1948 incoming cargoes included tractors, diesel operated generators, automobiles, whisky, glass and china.

Included among ships touching the northern Manitoba port were two Royal Canadian naval destroyers, an ice-breaker and 16 coastal vessels. "This was a wheat year for Churchill," said W. N. Twolan, port manager. "Indeed it was our only export. We are well satisfied with the season output, considering the amount of 1947 crop there was in the west."

Present port facilities appear to be capable of considerable expansion for both incoming and outgoing trade, he said. New living quarters for harbor employees are under construction and are expected to be ready for occupancy next season.

## Fifty Curlers To Tour Canada

MONTREAL.—To handle a party of 50 curlers from the Royal Canadian club of Scotland, who will tour Canada and the northern United States this winter, the C.P. steamship Empress of France, will call at Greenock, Scotland, to pick up the party. The curlers are scheduled for the return trip on Feb. 2.

The curlers from the mother country of the "roaring game" are tentatively set to play right across Canada from their arrival in Halifax Dec. 28, until their departure. Suggested stops for matches are Truro, Moncton, Lévis, Montreal, Toronto, Sudbury, Port Arthur, Winnipeg, Calgary, Nelson, Edmonton and Regina in Canada.

## Farm Machinery Need Emphasized

DETROIT.—What this world needs, said tractor designer Harry Ferguson recently, is more farm machinery instead of automobiles. The Irish-born inventor made the comment at dedication ceremonies at his new plant in Detroit. He promised a "new line" of agricultural implements which he said is in "secret development".

Horace D'Angelo, president, predicted a production rate of 100 tractors a day in the Detroit plant by Dec. 1.

### SUN WON'T BURST FOR "LITTLE" WHILE

MOSCOW.—Turkenskaya Iskra, a newspaper in Ashkhabad, quoted Soviet scientists B. Kuzarkov and P. Parengo as saying that while some stars have been known to burst, the sun "does not belong to their number," and will continue to shine brightly for at least 45,000,000,000 more years.

The remains of a prehistoric whale were found in an Alaskan glacier in November, 1930.

## DOES INDIGESTION WALLOP YOU BELOW THE BELT?

Help Your Forgotten "28" For The Kid Relief That Helps Make You Rarin' To Go. More than half of your digestion is done below the belt—in your 28 folds of bowels. So when indigestion strikes, try something that helps digestion in the stomach AND below the belt. What you may need is Carter's Little Liver Pills to give needed help to that "forgotten 28" of bowels. Take them according to directions. They help wake up a larger flow of the 3 main digestive juices in your stomach AND bowels—help you digest what you have eaten in Nature's own way. Then most folks get the kind of relief that makes you feel better from your head to your toes. Just be sure you get the genuine Carter's Little Liver Pills from your druggist—see

### THE TILLERS

NO WONDER THE CISTERN'S EMPTY—THE SPOUT'S LEAKING—WILL YOU FIX IT, JABBER?

CAR DROPS 40 FEET INTO RIVER.—Dropping 40 feet over a cliff near Niagara Falls, Ont., when the driver, Robert Paton, Toronto, failed to negotiate a curve, this car landed upright in the upper Niagara river. Mr. Paton, uninjured, waded to shore, then walked five miles to report the accident. The car was only slightly damaged.—S.N.S. photo.

## Foresters On Mice-Trapping Campaign

VICTORIA, B.C.—The forestry department is all-out on a mice-trapping campaign. The object is to discover when the mice population is at its lowest ebb so that the department can start planting Douglas fir seeds.

In the past it has been a race to see if the department could plant the seeds faster than the mice could eat them. The mice won.

Laboratory tests revealed a mouse could eat 300 seeds a day. The deer mouse appeared to be the worst offender.

The department is now considering coating the seeds in order to make them less palatable for mice.

### FEWER FLAT TIRES

NEW YORK.—The American Automobile Association reported fewer flat tires in 1947 than in 1946. The good news was tempered by the fact that battery failures, ignition trouble and carburetor failures increased. Automobiles stalled a total of 37,260,000 times in 1947, the association added.

Woodcarvers of Germany and Switzerland generally use mountain pine, walnut and basswood for their carvings.

## Prairie Water Conservation Program Outlined

OTTAWA.—G. L. MacKenzie, chief engineer of the agricultural department's prairie farm rehabilitation branch, said that a water conservation programme on the prairies may spread over 3,300,000 acres of farmland.

Speaking before the Engineering Institute of Canada, he said the initial programme is being developed in a general area of 105,000 acres but that ultimate irrigation would not exceed 3,300,000 acres.

Currently, three projects are under way in Alberta, and one in Saskatchewan.

## Seek To Lengthen Tourist Season

OTTAWA.—A suggestion Canada's tourist season be lengthened by postponing celebration of Labor Day from the first to the third Monday in September was made at the third annual Dominion-provincial tourist conference.

D. Leo Dolan, director of the Canadian travel bureau, said he has been urging the change for years but the idea is unacceptable in some quarters.

**KEEP CHILDREN OFF ROADS IS PLEA OF DRIVER'S WIDOW** — Adam Weatherstone, 22, of Guelph, Ont., died in the flaming cab of his truck after he swerved to avoid a child playing on the highway at Hespeler, Ont. Truck tore a hole in the house and rolled down an embankment as shown in diagram. Mrs. Weatherstone, now a widow, urged parents to keep their children off the roads. She was to go on the trip with her husband but went shopping instead.—S.N.S. photo.

**YOUTHFUL EXHIBITORS HOPE FOR FIRST PRIZE**—Youthful exhibitors at fair held at Brigidon, Ont., are Eldon and Linda Lucas, of Brigidon. Their exhibit is these two large pumpkins, which will take first prize—their hope.—S.N.S. photo.

**YOUTHFUL GREAT-GRANDPARENT Baffles ACQUAINTANCES**—One of Canada's youngest great-grandparents, Fred Stacey, 69, Peterboro, Ont., holds his great-granddaughter, Donna Evers, four and one-half. He has 11 children, 23 grandchildren, four great-grandchildren.—S.N.S. photo.

**BRITAIN'S FRISKY FILLIES**—This sextette of Britain's smiling daughters wears the new uniform of Britain's women search officers. They are to be employed by His Majesty's customs and their duties will be to see that nothing gets past the customs enshrined in the films that make up my lady's glamour duds. They will learn all the tricks of personal search from a woman police officer loaned by Scotland Yard.—S.N.S. photo.

**GLACIERS ON THE MOVE**—From two miles up and 10 miles distant, a coast guard camera records the joining of two Greenland glaciers as they proceed to a fjord to deposit their iceberg quota. Under tremendous pressure of the ice cap, these glaciers inch along, winter and summer, moving as much as 50 feet per day. In early fall the fjords and bays freeze solid, preventing the movement of bergs. With the coming of spring the breakup starts and the icebergs avalanche into the water.—S.N.S. photo.

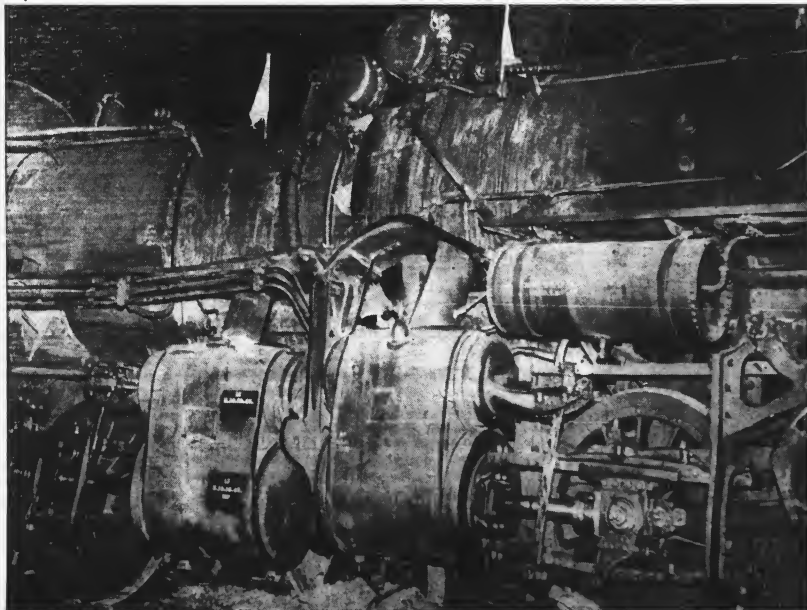

**HER MOTHER CLAIMS NON-SUPPORT**—Veronica Lake, (above), collapsed in tears over her mother's charges she had to live off charity because her \$4,500-a-week daughter wouldn't support her. A suit has been filed by Mrs. Constance Veronica Keane, 47-year-old mother of the tiny movie-queen, charging the actress owes her \$60 a month and \$17,416 in a lump sum, according to an agreement they signed in 1943.—S.N.S. photo.

**FIVE-FOOT WOLF KILLED BY BOY, 14**—A five-foot wolf was killed by William Carter, 14, near the village of Eattorsa, Ont. Armed only with a stick, the boy said he fought off an attack by the wolf and kept raining blows on it until it died. Accompanied by his brown collie, Bruno, the boy was on a horse taking the cows to pasture. Above, Carter holds the wolf pelt for his dog, Bruno, to see.—S.N.S. photo.

**SAVS BRITAIN FACES FOUR MORE LEAN YEARS**—Sir Stafford Cripps, British chancellor of the exchequer, is a very straight-talking man... hence no one was surprised when he said, while he was on this continent, that Great Britain faces four more lean years and that his country's exports and imports would not be balanced until 1952. He said his countrymen understand the need for the austerity program, and while they don't like it, they are "grinning and bearing it." Sir Stafford said nationalization of the coal industry has worked out well, and he predicted that steel will be the next major industry to be nationalized.—S.N.S. photo.

**GIANT LOCOMOTIVES WELDED BY IMPACT**—One man was instantly killed when the tender of the northbound Toronto-Parry Sound freight was rammed into the locomotive tender where he was standing. Death occurred as the result of a crash between the two C.N.R. freight

trains near Beaverton, Ont. The southbound train was standing still when the northbound engine tore into it. Above are shown the telescoped engines which are a huge mass of wrecked steel after they met head-on.—S.N.S. photo.

**WINS TERRIER TITLE FROM CLASS OF 45**—Champion Boston Terrier, Syvangelin's Lady Valentine, owned by Paddy Bougha, Toronto, won over 45 others in the 30th annual Boston Terrier club of Toronto show, Thanksgiving Day. Young admirer, Twinkle Thompson, 8, is shown with champion, who is said to hold all-time record for wins of her breed.—S.N.S. photo.

# EVERYBODY'S BUSINESS

by  
**Don Graham**

How often we shy away from facts and allow our thinking to be coloured by emotions! Mr. White has somehow deceived himself into thinking that he is a very important man. To hear him, you would think that he was the moving force in the community and the brains behind important schemes.

Actually he is nothing of the sort. He is just kidding himself. And as a result he is unpopular in many directions. Mr. Black has big plans for his job. He hopes things will "work out". But they never will—because he hasn't really faced certain obstacles.

On many controversial subjects, Mr. Green has strongly prejudiced views. Facing all the facts would temper his opinions. But he ignores the other side of the argument. So he doesn't see issues in their true light.

Lastly, there is Mr. Brown—a man who fails to see the good qualities in people he doesn't like. He just doesn't want to.

Since we all resemble these men to some extent, it pays to try to be a fact-finder!

The fact that over four million Canadians own life insurance proves that most people take a realistic view of the future. They know that life insurance offers the easiest, safest way to provide financial security for their dependents and for their own old age.

# Seen And Heard In London, England, During The Summer Of 1948

(Kay E. Panek)

Editor's Note: Mrs. Panek has only recently returned from England where she resided during the summer months. At the invitation of The Journal she herewith gives her personal impressions of England as it is today.

"After spending my first few days receiving relatives and friends we set out to make a tour of London. Quite a lot had been done to heal the scars left over from the war but there is still lots to do yet.

"The large and small stores alike are busy replacing windows, etc. which had been damaged by the blitz and until recently, owing to labor and material shortages, they had not been able to procure.

"Blocks of apartments to hold thousands of people are being built by the dozen all over the city and mostly on bombed out sites. Many streets in the centre of London, i.e. Piccadilly Circus, Regent Street, Haymarket, Shaftsbury Ave. Coventry Street, etc. were gaily decorated with flags and bunting as this summer the 1948 Olympic games were being held at Wembley Stadium. Visitors from all over the world were there in their thousands and tongues of many nations could be heard. It certainly was a London with a brighter face than I had seen when I left in 1946.

"The people mostly are very cheerful. Work is plentiful, although still under the direction of the Ministry of Labor.

"Though they are building at a good rate housing shortage is still acute. It is not an uncommon sight to read in the local paper of people offering between \$400 and \$1,000 for information leading to them being able to rent or buy an apartment or house at nominal rent.

"The basic ration of food per person weekly consists of butter, 2 oz.; margarine, 4 oz.; bacon, 2 oz.; tea, 2 oz.; sugar, 8 oz.; 1 egg or more depending on availability.

"24 food points are allowed for one month with which to purchase such commodities as canned fruit, canned meats, canned salmon, canned vegetables, dried fruit, cereals, cookies, or biscuits as all of them there, which have various point values. For instance meat and fruit being something like 28 for the former and 20 for the latter; salmon, tall tins, 36 pts. This, of course, would not be too bad when there are a large family but when, as in the case of some, only one or two people catering becomes more difficult. Soap is also rationed at 12 oz. per month per person.

"Meat is allowed at 28c per person. But of course being as food is still sold at controlled prices the price per pound would vary from 25c to 45c for the choice cuts. Fish is plentiful and cheap, 19c per pound for the majority of kinds.

"Here are some of the prices of main rationed food: Butter, 31c per lb.; margarine 18c; lard, 20c; bacon, 40c; cheese, 25c; bread 9c for a 2 lb. loaf; eggs, large, 60c doz.; milk is rationed at 2 1/2 quarts per week at 20c per quart.

"Bread, whilst I was there was taken off ration but the flour is very dark, (more like whole meal) and strange to see after the pure white Canadian flour. The taste is good and more substantial.

"Clothes are still on coupons, 48 coupons being allotted to each adult each year, whilst 10 extra and in some cases 20 are given for the children. Expectant mothers are given an extra 80. The amount per article in some cases have recently been reduced. Take for instance, lady's coat from 18 to 12 coupons; Gent's suit from 27 to 20 coupons; underwear, lady's slip, 5; night-dress, 7; gent's shirt, 7; socks, 2 per pair; stockings, 3; there are no nylon. That does not allow much for the "new look" style, does it?

"The children are very well cared for. Every school child to the age of 15 years is given a free 1/2 pint of milk per day, meals, that are hot dinners at the rate of 8c per day. If more than one child of the same family is attending then the amount is reduced to second child 6c and so on.

"Children up to the age of five years are allowed 1 pint of milk daily at 4c per pint, the rest of the money, i.e., 6c being subsidized by the government.

"2 bottles of concentrated orange juice is allowed at a cost of 20c per month whilst food liver oil is given free.

"Lots more goods are now for sale in the stores but there is still a dearth of chinaware such as cups and saucers. It really is a rare sight to see any of these lovely pieces of china, England is so famous for. The only kind for sale being the plain white and these are seldom coming either, all other kinds being sent abroad for export.

"Long queues will be found when one hears the word "elig-arette". 20 if you are lucky, more than likely you will get only 10 or maybe 5 and pay 75c for 20

for that pleasure too.

"Whiskey, another short item, supplied at controlled price of \$7.50 against per-war price of \$2.50. Even at that try and get it. Only the fortunate few do that also being sent for export to bring home dollars.

"I talked with various people and came away with the idea that on the whole people are fairly well satisfied with the Labor Government's National Insurance Act, which was put into operation last July 5. It means security for many millions, in unemployment, sickness and old age with free hospital treatment, medical supplies, glasses, dentures and appliances of these so many people before could not afford.

"The coal situation is somewhat improved re the allotment of coal to the householder which I think is somewhere in the region of one and a half tons a year according to how many rooms you have. I heard a broadcast whilst there warning the people to use less electricity and to continue to do so in the winter months as cuts are likely to be made during peak hours of use affecting stores, cinemas, domestic users, etc.

"Several people feeling the after effects of war and wishing to seek their fortunes in other lands, of these many ask questions re the hope of employment in Canada and I understand the list of immigrants to this country is quite long.

"Certain people before I left in September were scared at there being another war soon, whilst others pool-pooled the idea that this would happen.

"Previous to the conclusion of my visit many people had remarked how grateful they were to Canada for all the help she, her people, had given, not forgetting the food parcels, clothes, etc. which were always received with great anticipation. I came away thinking I would like to extend to these people six months western hospitality.

## LOCAL NEWS

Mrs. Margaret Antle is visiting a sister in the States.

Mr. Ken Mellor, of Lethbridge, visited friends here at the week-end.

Mr. and Mrs. Harry Tieson have taken up residence in town.

Mr. and Mrs. Jack Clark, of Ainsworth, B.C., were in town Wednesday visiting friends.

Bobby Fleming, young son of Mr. and Mrs. Neil Fleming, fell on Tuesday and dislocated his elbow.

Mrs. Mary Fraser entertained at three tables of bridge on Tuesday. Honors were won by Mrs. B. Bond, Mrs. Wm. Lonsbury and Mrs. Pollock. The travelling prize was won by Mrs. Harry Holmes.

Royal Purple Collected  
\$237.12 For Blind

The tag day in support of the Canadian Institute for the Blind was conducted in Coleman by the Royal Purple lodge a few weeks ago.

The canvass has now been completed and the handsome sum of \$237.12 has been collected. The money has been forwarded to provincial headquarters.

The Lodge expresses its thanks to the local public for its appreciated support.

Trap Muskrat On Fifth Street

Tuesday evening, while walking down the alley separating Fifth and Sixth streets to visit Mrs. R. Greenhalgh, Mrs. Arthur Jones found herself being followed by an animal which, in the dusk, she thought was a pack-rat. She told Mr. Greenhalgh of her experience and he set a trap for the animal.

Wednesday morning he found a muskrat in the trap and it is believed that this was the animal which had followed Mrs. Jones. It is the first time in many years that such an animal has been found in the residential area.

## Mrs. Rose Waddington Died Sept. 26 On Vancouver Island

Had Resided on Fifth Street  
For Several Years Prior to  
Departing to West Coast in  
1938.

The Journal is indebted to  
Mrs. Roy Thomas, of Vancouver,  
for the information on Mrs.  
Rose Waddington, who passed  
away on September 26 at her  
home in Puntledge, Vancouver  
Island.

Deceased, her husband and  
two daughters resided on Fifth  
street next to Mrs. Wm. Roug-  
head's residence, for several  
years, Mr. Dan Waddington be-  
ing employed at International  
mine. The two daughters, Rose  
Manr, now Mrs. Thomas Gray,  
and Joan, attended the local  
schools.

In 1938 the family moved to  
Vancouver Island where they  
took up residence at Puntledge.  
Mrs. Waddington had been ail-  
ing for some time and had re-  
cently undergone an operation.  
She had appeared to be gaining  
in health when the end came  
rather suddenly.

## Police Report

Court Cases  
2 for assault.

13 for drunkenness under the  
Liquor Act and having liquor in  
a place other than their resi-  
dence without holding a permit  
under the Liquor Act to do so.  
One of these men went to jail,  
two of them went out of town  
and did not pay their fines.  
Warrants have been issued for  
their arrest.

1 Under the Vehicle and High-  
way Traffic Act.  
7 Under the Town Traffic by-  
laws.

23 total.  
3 cars and one service truck  
reported stolen, one of these  
cars found near Lundbreck, one  
in Blairmore, one in Bushtown  
and one in Coleman. The last

complaint of car being stolen:  
this car was supposed to be  
parked in front of the Legion  
club at Coleman. The car was  
found on Third Street, the own-  
er might have forgotten where  
he parked the car.

1 safe was reported robbed of  
\$240.00. The safe door must  
have been left open as the safe  
not blown. Money has not been  
recovered.

1 32 calibre automatic gun  
stolen from the Canadian Bank  
of Commerce. It has not been  
recovered.

Car drivers have been check-  
ed very regularly for driving too  
fast and for parking and  
especially horn blowing.

Recently the police have been  
under a handicap as far as  
court cases go. There is no Jus-  
tice of the Peace or Police Magis-  
trate here. There's one in Pin-  
cher Creek and it is very awk-  
ward to take the chance of tel-  
ling a person to appear in Court  
as when the magistrate comes  
to sit on the case the offender  
does not appear.

Yours truly  
Wm. Antle,  
Chief of Police.

## POPPY DAY SATURDAY, OCT. 30

As stated in last week's issue  
the Coleman branch of the Ca-  
nadian Legion will sell poppies  
on Saturday, Oct. 30. Everyone  
is urged to wear a poppy.

Those Legion members who  
wish to take part in selling the  
poppies are asked to report to  
the Legion Club at 8.45 Satur-  
day morning at which time they  
will be allotted their poppies.

People shop where they are  
invited—that's why it pays to  
advertise.

IT'S THE SAME delicious  
Maxwell House Coffee . . .  
in Super-Vacuum Tin  
(Drip or Regular Grinds)

## WHAT PRICE DEMOCRACY?

Democracy is without price . . . no one can ever take it  
for granted or assume it is paid for in full. It is an in-  
heritance we are duty bound to pass on . . . not only to  
the next generation, but to our fellow men everywhere who  
have yet to enjoy its full benefits.

Democracy grew from a great ideal . . . that all men are  
born free and equal and are deserving of the same privileges.  
It can live on only if we constantly strive to fulfill this  
ideal and protect the priceless freedoms won.

Moderation is one of the chief safeguards of democracy.  
By being moderate in our thinking, in our actions, and in  
our pleasures, we are living democratically.

As The House of Seagram has so often stated, by being  
moderate in all things we are acting for the common good.

*Men who Think of Tomorrow  
Practice Moderation Today!*

THE HOUSE OF SEAGRAM

*This is our  
Average  
Shareholder . . .*

His name may be George Wilson, Patrick O'Reilly or Emile Legault.  
He may be a farmer, a lawyer, a carpenter, a real estate agent, a banker,  
a teacher or one of our own employees. His wife or mother might be a  
shareholder. He and about 5,000 other Canadians from all walks of life  
are the owners of Dominion Textile Company Limited. Last year,  
among them, they did \$57,836,394 worth of business. That was the  
company's total income for the year.  
Let's simplify it and say each Average Shareholder did \$11,567.07  
worth of business. That was the money he took in. Now let's look at  
what he spent to get that money. Here it is, roughly calculated, for the  
average shareholder:

Raw materials (principally raw cotton) . . . . .	\$6,799.86
Spinning, chemicals, dyes, packing cases, other supplies and operating expenses such as re- pairs, fuel, power, light, pensions, insurance and other such items . . . . .	\$2,164.66
Amount paid to employees . . . . .	\$1,628.14
Taxes . . . . .	\$ 467.91
Money re-invested to keep the business in a stable condition . . . . .	\$ 178.81
Net profit received by Mr. Average Shareholder (on which he pays personal taxes too) . . . . .	\$ 568.96

## Donald Grigg Blairmore's New Optometrist

Veteran of Last War and  
Was Member of First Class  
of Veterans to Graduate in  
Optometry at University of  
Toronto.

Blairmore has a new optometrist. He is 28-year-old Douglas Grigg who calls Picture Butte, Alberta; home. This is his first private practice and he fondly hopes that he will in time consider the Crows Nest Pass his friendly home in the Foothills. Mr. Grigg is unmarried.

A veteran of the Second War he attended the University of Toronto. He was a member of the first graduating class of veterans from the university in Optometry. He has specialized in Optometry at Toronto, Medicine Hat and Lethbridge.

The equipment installed in his Blairmore office is modern in every detail and he respectfully solicits the patronage of the Pass public. Mr. Grigg is running a Directory advertisement in The Journal and his address and phone number can be easily ascertained by perusing his advt.

## Southern Branch A. M. A. Held Meeting Lethbridge, Monday

The southern branch of Alberta Motor Association held its annual meeting in the Marquis hotel, Lethbridge, on Monday evening. Approximately thirty members were present from the city of Lethbridge and rural district. President G. C. Paterson, K.C. was chairman. The meeting heard that its

branch manager and assistant branch manager were retiring from office, they being E. R. J. Forster and his son C. E. Forster, due to sickness on the part of the former and pressure of private business on the part of the latter.

Feldman Jack Gelson, well known locally, was appointed as branch manager.

The branch office will be moved from the present location in C. E. Forster's office to a new location on 3rd Street South.

Mr. Paterson despite his appeal to be relieved of office was again elected to the office of president.

The president reported on the various road projects at present under construction in addition to the school patrols which had been organized both in Lethbridge and the rural districts. The financial report showed the branch in a fairly healthy position.

Appointed to the slate of directors were Les. Green for Bellevue; L. L. Morgan for Blairmore and Mayor Frank Abousafy for Coleman.

Attending from the Pass were Mr. Green, Mr. Morgan, Mayor Abousafy and P. A. Dickleson, N. Nicholas and A. Balloch.

## WORLD HAPPENINGS BRIEFLY TOLD

Gen. Dwight D. Eisenhower has been installed as Columbia university's 13th president.

Mrs. Fanny Brownhill, first Australian woman member of a parliament to be re-elected unopposed, died recently.

One of the largest food stores in Peiping was wrecked by a mob of shoppers angered because supplies had given out.

Frederick William Sylvestre, former official of the Jerusalem Electric Corp., was sentenced to seven years in prison on a charge of espionage.

The expected combined crop of corn, wheat, oats, barley, rye and grain sorghums in the United States is \$444,000,000 this year, according to the U.S. department of agriculture.

Prince Philip will lay aside his naval duties during the next nine months to help his wife, Princess Elizabeth, run Britain's royal affairs while the King and Queen are touring Australia and New Zealand.

A total of 72,754 prairie farmers shared \$17 millions benefits under the Prairie Farm Assistance Act, Director R. F. McGregor reports. Bulk of the sum, \$13.5 millions, was divided among 34,127 Saskatchewan farmers.

NEW YORK.—Canada's queen of the ice, Barbara Ann Scott, will make her professional debut at New York's Romy theatre, it was announced. The pretty, 20-year-old Ottawa native has been signed to headline the Romy's holiday stage show starting Dec. 22.

## FIFTY PER CENT. MORE SPENT ON FARM MACHINERY

OTTAWA.—Canadian farmers last year paid out about 50 per cent. more for new farm machinery than they did in 1946.

The bureau of statistics reported that farmers spent \$48,143,000 in 1947 than in 1946 to mechanize farms.

Estimated grand total of expenditures on new farm machinery at the retail level was \$146,588,000 compared with \$98,446,000 the previous year. An estimated additional \$30,041,600 was spent for repair parts compared with \$27,429,000 in 1946.

Domestic sales of new equipment, mainly at wholesale prices, amounted to \$120,650,000, an increase of 48 per cent. over the revised estimate of \$81,698,000 for 1946. Sales of repair parts at wholesale prices totalled \$22,880,000 against \$20,827,000 in 1946.

The prairie provinces accounted for 61.1 per cent. of the 1947 all-Canada sales compared with 56.1 per cent. in 1946 and 60.6 per cent. in 1945. Dollar value of sales in Manitoba was up 53 per cent., Saskatchewan, 62 per cent., Alberta, 64 per cent. An increase of 37 per cent. was recorded for Ontario, 26 per cent. for Quebec and British Columbia, and 14 per cent. for the Maritimes.

## Montreal Woman Describes Visit To Port Of Churchill

Mrs. W. S. Edgar of Montreal, with her husband, visited Churchill, Man., recently, and the following is Mrs. Edgar's description of the strategic port city of Churchill as it appeared in the Montreal Daily Star:

AT FIRST sight, Churchill looked disappointing. It presented a very untidy appearance, nearly every building on the tiny townsite—the total civil population does not exceed six hundred—seemed to be in a state of erection or repair. Loose lumber lay everywhere, trampled, uneven ground surrounded each new dwelling, and debris of all kinds was strewn carelessly about.

But in this sub-Arctic region, where all out-of-door work is a race against time, no thought could be given to tidying up as one goes. The moment the day's regular labor was ended, each man hurried home to resume work on his own dwelling. Wife and children shared in the labor. It was a common sight to see an entire household busily removing shingles from a roof undergoing renovation or engaged in painting the new ones recently placed there. Nor did the work stop at sundown; long after darkness had fallen, far into the night one could hear the steady pounding of hammers as men worked by lantern-light.

Churchill's homes have no cellars. How could they have them when even in the height of summer less than two feet beneath the surface of the ground the land is perpetually frozen?

But the most lasting impression made on a visitor to the town was its vivid coloring. The flowers and plants of Churchill adapt themselves to the rigid sub-Arctic conditions and grow close to the soil, clinging vigorously to the gray rocks and making the most of the short summer allotted them. And what a wealth of plant life there was in Churchill and how striking the contrasts in color—black or rust-colored mosses clambering over the blue gray rocks or green wild cranberry plants with their bright red berries nestling where soil and rock meet. Was it by chance that the Harbour Board houses were painted yellow, or did their owners realize how arresting a yellow house set among the gray rocks and backed by a brilliant blue sky would appear? Other

houses had roofs painted blue or red. Perhaps the brilliance of the Northern Lights—seen swaying like waving plumes one mid-August night—or the golden glow of the setting sun suffusing the entire sky, had induced the town-dwellers to mimic nature in their choice of colors for their own hard-wrought homes. Color is everywhere around the townsite: In the blue white-crested waves of Hudson Bay, in those of the Churchill River emptying into the world's largest inland sea, and in the bright hues of Indian and half-breed raiment.

Churchill is built on a narrow peninsula between the bay and river. Harbor and bay are not ice-free until late July. The earliest boat from Great Britain reached Churchill as late as the ninth of August, and not more than a score of them will call before the two-month season closes.

Churchill's wharf can berth four vessels and three ships can be loaded simultaneously with grain from the towering white elevator which is by all odds the most beautifully proportioned and stately building in the town. A stroll through the freight shed reveals surprises which vary with the arrival of each ship; in one case a consignment of British-made cars. These had been bought over by a British freighter, then in port, and were awaiting delivery to Calgary, Edmonton and other Western cities. In the shadow of this British freighter, the Empire Beatrice, lay the Regina Polaris, a Catholic mission ship which was at Churchill to pick up supplies for Eskimo missions in the Far North.

But though it is fascinating to watch the flow of the red-gold grain—a miniature Niagara—pouring into the holds of the ships, or the schools of white whales spouting in river or bay, the visitor's interest and attention is captivated most of all by the wave-washed rocks on the shores of the bay. Endless action of ice and tide has so chiselled and polished these rocks that their surface has the appearance of the smoothest satin.

The Elbruz are a mountain range in north Persia, south of the Caspian sea.

## LITTLE REGGIE

YA KNOW, FELIX—THERE'S BEEN BURIED TREASURE FOUND IN THESE PARTS!

YEAH?

MAYBE YOU'LL DIG UP A GOLD NUGGET... OR A CHEST OF DIAMONDS...

GOSH!

...AN INDIAN ARROW HEAD ...OR AN OLD SKULL AND BONES...

HOLY SMOKES!

REGGIE—DO YOU HAVE THE GARDEN DUG YET?

SURE HAVE MOM!

I wonder what Mrs. Botts will say!

## KITCHEN MEDITATIONS

### The First Snow

By JANE DALE

Last night when I went to bed No stars were shining overhead. The east wind moaned and the bare trees groaned;

I pulled the covers over my head. This morning I looked out to see Why the stars didn't shine for me; Why the east wind moaned and the bare trees groaned.

The world was changed as changed could be. I saw a blanket of purest white It must have fallen in the night When the east wind moaned and the bare trees groaned.

And I had hidden my head from sight. The bright sun chased the clouds away And said to me, "Come out and play." The wind won't moan, nor the bare trees groan.

The first white snow is here to stay.

## GEMS OF THOUGHT

### CHARACTER BUILDING

You cannot dream yourself into a character; you must hammer and forge one for yourself.—Froude.

The essential factors in character building are religion, morality, and knowledge.—J. L. Pickard.

The important thing in life is to have a great aim, and to possess aptitude and the perseverance to attain it.—Goethe.

A good character is, in all cases, the fruit of personal exertion.—Joel Haves.

To be worth anything, character must be capable of standing firm upon its feet in the world of daily work, temptation, and trial.—Smiles.

In the mental collisions of mortals and the strain of intellectual exerting, moral tension is tested, and if it yields not, grows stronger.—Mary Baker Eddy.

## "SASKATOON MOON"

VANCOUVER.—Al Hoffman, composer of the famed "Maizy Doots" song, is fascinated with the name "Saskatoon" and hopes to do something with it. The New York composer said: "The great Canadian song hasn't been written yet. I think it could be 'Saskatoon Moon', or 'Moon Over Saskatoon'."

## Weekly Tip

**LINOLEUM WITH A FINISH**  
Give your linoleum an extra glossy look by adding a little clothes starch to the mop water.

PRISCILLA'S POP—That's Our Gwendolyn

—By Al Vermeer

Come quick, Pop! Gwendolyn's having a fight with Mrs. Botts' cat!

I knew it was a mistake to keep a chicken around the house!

Did she get badly hurt?

Yeah, she sure did.

I wonder what Mrs. Botts will say!

—By Al Vermeer

## Health LEAGUE OF CANADA presents TOPICS OF VITAL INTEREST

### CHILDREN NEED ELUSIVE VITAMINS

Vitamin "D" may be the "sunshine vitamin," but that doesn't mean the youngsters can get all the "D" they need just by sitting in the sun.

In a pamphlet entitled "Points About Vitamin D," the Nutrition Division, Health and Welfare Department, says it isn't possible to get an adequate supply from the sun.

The ultra-violet rays which make Vitamin "D" cannot penetrate smoke, fog and dust and the rays cannot get through a tanned skin.

Every child needs 400 International Units a day. This can be bought in drops, liquid, tablets or capsule form, for "less than two cents a day".

While some mothers may think their children should get enough of the vitamin in their food, the department says "No".

Useful amounts of Vitamin "D" are present in such foods as irradiated evaporated milk, sardines, salmon, but not in adequate supply for growing children.

The vitamin is so important mainly because it provides protection against rickets.

"Probably one Canadian child out of eight has or has had rickets in mild or serious form. Every year some 30 Canadian children die of rickets in poor adult eating habits and weakened when they are exposed to disease in later life."

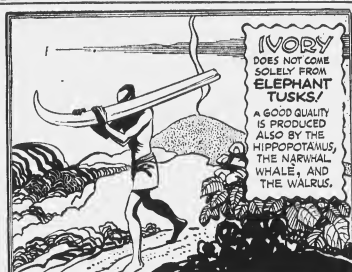

In addition, the body must have Vitamin "D" for tall, well-developed bodies, straight bones, and good health.

On the subject of teeth the department warns that while mother may not always realize it, her child's "baby" teeth are his most precious possessions.

If they are not properly cared for, the youngster's mouth may not develop properly. This often can result in poor adult eating habits speech difficulties, and a great deal of pain and discomfort in later life.

## OUR COMPLETE SHORT STORY—

## FLIGHT OF THE RAILBIRD

By ERNIE RYDBERG

WHEN the misadventure I get over to Swartz's, Rudy isn't home. Molly, Rudy's frau, doesn't say where he is, but I got a good idea. She looks kind of worried, and so I figure Rudy's out seeing a guy about a horse.

I sit down and breeze through the evening paper while Molly and Hazel go out in the kitchen. I can hear them talking.

"Molly," says Hazel—coming right to the point as Hazel is inclined to do, "Does Rudy make lots of money at the races?"

"No," says Molly slowly. Then she quickly adds, "But he doesn't lose much. In fact, I think he's a couple of hundred dollars ahead this season."

"My goodness is that all," sniffs Hazel. "Fred and I were talking the other night..."

That's enough for me. I don't like Hazel sticking her nose in other people's business. I go over to the far end of the room so I can't hear. Rudy's a swell Joe. Hazel shouldn't pick on him. My gosh, if it hadn't been for Rudy, I'd probably still be making about fifty a week. We're partners. Got the sweetest little job printing set-up you ever saw.

He's a go-getter, Rudy is. Like the ticket end alone. Rudy can peddle tickets to anybody. I bet if you live anywhere within five hundred miles of Jerico, and you buy a ticket to the pictures or the fights or a play—even to the opera, you'll be using one of our ducats.

"Do women need to suffer so?"—mothers are often asked. One mother writes: "The company nurse recommended Paradol when my daughter feared she would lose her job because of time lost each month. Now she does not suffer pain or discomfort. Paradol is the answer for women who suffer each month. Quick relief also from headaches and neuralgic pains. The name 'Dr. Chase' is your assurance. Carry Paradol in your purse."

**DR. CHASE'S PARADOL**

**CUT FOOD COSTS... RAISE FOOD VALUE**

with "MAGIC" EGG ROLL

2 c. Hour  
4 tsp. Magic Baking Powder  
1 c. fat, salt  
1 c. shortening  
1 egg  
1 c. milk  
5 hard-boiled eggs  
4 c. milk  
2 tsp. lemon juice  
2 tsp. chopped onion  
2 tsp. chopped parsley  
2 tsp. chopped green pepper  
1 tsp. dry mustard  
Salt, pepper, paprika

Put together first 3 ingredients. Cut in shortening. Beat egg in measuring cup; add milk to make 1 c.; cup add to first mixture. Roll out 1 inch thick, on floured board. Chop hard-boiled eggs, mix with remaining ingredients, spread on dough. Roll up like jelly roll and bake in hot oven (400° F.) 30 minutes. Serve with cheese sauce.

**MAGIC BAKING POWDER**

MADE IN CANADA

FOR SUCCESSFUL BAKING

Naturally, when the Jerico Track opened up we got their business. Millions of those little cardboard we've printed. Rudy landed that contract, but he practically had to live out there. He started getting interested in the horses. And how! Pretty soon he was talking of little else.

Not that Rudy is one of those guys who goes around with a racing sheet in his hip pocket all the time. He doesn't. He got quite a reputation for himself when he hit some unusual ones. Rumor has it that Rudy has a system all his own. Anyway, guys are always siding up to him for hot tips. I'd figured he was coming money, and I am pretty surprised when I hear Molly say he is only a couple of hundred ahead.

I sit there for a few minutes, kind of fidgety. I don't like Hazel talking to Molly about it. I know Molly's plenty sensitive about Rudy not holding up his end down at the print shop. Not that I'm complaining. Pretty soon I scatter out to the kitchen. The girls are discussing whooping cough.

I park myself on a stool and start twirling a fly swatter. Molly stoops over to look at a couple of apple pies in the oven, and I pop her one. She screeches, and Hazel says, "Freddie," in a very scandalized tone.

"Now, will you tell me what the big surprise is?" I say.

"I will not," says Molly. "You'll have to wait," and just then Rudy comes in, and we sit down to supper.

I am pleasantly surprised to find everybody in very good humor. Even Hazel keeps her nose out of other people's business. From the soup, through the roast, even to the last bite of apple pie with the piece of cheese I've saved for it, I'm trying to figure it out. Only one thing I can figure. Rudy's hit a long shot for a pile of dough.

While the girls are doing the dishes, Rudy and I go into his study. Right out of the blue sky he says, "Name a horse."

"I'm surprised. He'd never discussed horses with me."

"Name a horse. Any horse."

"Now, I'm not a betting man, but once in a while moment I put fifty bucks on a nag at Santa Anita. So I say 'Ajax'."

He pulls out the first drawer of a green filing cabinet, flips through the cards, pulls out one marked "Ajax". He looks at it. Everything's down. Parents, grandparents, every race he ever ran, best time, poorest time, conditions at the track, weather, jockey, owner's name, trainer, transfers of ownership. The works.

"Look on the other side," he says. I turn the card over. It's a graph covering five years, and there's an inked-in line that curves up and down.

"What's this?" I ask.

"The horse's record," says Rudy. "Based on the information on the other side of the card. See this up-curve. Shows the horse is coming. A down curve means he's passed his peak. Except for occasional flukes, all charts'll run this way," and he pulls out half a dozen other cards to prove it.

But I don't pay much attention. I'm figuring out when it was I lost my fifty bucks. Sure enough, Ajax's curve is just starting down.

"My gosh," I grunt. "This is like money in the bank."

"Well, not exactly," chuckles Rudy. "I have to work out which way the curve is going to go before the race. Not after it... Come on out back," and he switches on the light in the patio.

He takes me over to a little building. Inside, there's enough stuff to start a weather bureau.

"Weather conditions make a lot of difference," says Rudy, squinting at the thermometer. "Say, here's something else," and we walk over to the corner of the lot where there is a square plot of bare ground.

"I had the soil tested at the Jerico Track," says Rudy thoughtfully. "This is almost identical to it."

I begin to get the drift. I'm amazed, but I shouldn't have been. It's just like Rudy. When he does something, he does it thorough.

"The idea is," says Rudy. "I know before I get to the track just what to expect. I know the weather conditions. Well, with the dope on my cards I can make my selections right after lunch and get out to the track in plenty of time for the first race."

We see the light in the kitchen go off, and so we saunter inside. Right away Hazel suggests bridge. Only nobody makes a move. We sit around and talk about this and that. Hazel picks up some cards and starts shuffling them in her lap. Personally I'm itching to know what the big surprise is. Finally Molly says—like she'd just suddenly happened to think of it.

"Oh, Rudy, what did the man at the weather bureau say?"

Rudy smiles at her. "Said they'd be tickled to death to have the stuff."

"Then I can plant tomatoes out there on—on your track?"

"You sure can, Honey," Rudy gets

**Surest Thing Ever:  
Doped Out On  
Horse. But Missed.**

up and goes into his study. He comes back, rolling his green filing cabinet. Hazel has even put down the cards.

It's a pretty warm evening, and you can imagine my surprise when Rudy crumples up a lot of newspaper, sticks them on the fire and touches a match to them. He pulls open Drawer A to C; grabs a handful of cards and tosses them on the blaze.

"Good gravy," I snort.

Rudy grins. The girls are cackling out of the corner of Molly's eyes.

"This little railbird has come home to roost," grunts Rudy, and he chuckles on more cards. He pulls out the bottom drawer, finds a card and tosses it to me.

It's "Zaca"—everybody's choice this afternoon in the fifth. The fire is burning like anything, and we all move back. Rudy comes over and sits on theavenport with me. He takes the card out of my hand; looks at it for a long time.

"Surest thing I ever doped out," he says finally. "Great odds. I decided I'd go with hog."

"Yeah," I say.

"Yeah," says Rudy. "I started for the hundred-dollar window, and Whitey Morris stopped me. He wanted to know if I had anything in the sixth. Well, I stashed him, and just as I got to the window, they closed it."

"I really didn't mind. I seldom bet to win. I sauntered over to the rail. It was a great race—close all the way—then Zaca is hoed out in the stretch. I was dumbfounded. Everything showed Zaca should have won. I knew it was an honest race. I stood there thinking where I could have missed. I might have missed. Pretty gutsy this afternoon. Anyway, I'd missed. I tore up my ticket and tossed it away."

"Uh huh," I grunt, waiting for him to go on. All of a sudden I think of something. "Hey," I say. "I thought you said you didn't buy a ticket."

"I didn't," grinned Rudy. "Freddie, for years I've been playing around with little square pieces of cardboard. That was my hundred-dollar bill I tore to bits. You should have seen the wind take it kiting."

Rudy got up and threw some more cards on the fire, went over and sat down beside Molly. They made a pretty picture.

"It was kind of quiet in the room but Hazel fixed things."

"Let's play bridge," she said.

—and I got the window, they closed it.

**PLENIES OF BALED STRAW** are frequently seen on Manitoba farms this fall where in former years blazing straw marks the end of the threshing season. Straw for feed and bedding is highly valued by livestock farmers and it also represents a definite amount of soil fertility which goes back to land via the manure spreader.

**Plenty Of Meat For Christmas**

OTTAWA. — No matter what trouble they might have getting other commodities, Canadian housewives "certainly won't find it hard to get meat" this Christmas, L. W. Pearsall, chairman of the Canadian meat board, said.

Asked for his impression of how butchers' shelves will look this Yuletide Pearsall said "they'll be loaded."

He said there would be more beef slaughtered every week between now and next spring—barring strikes or other such eventualities—than the Canadian public can eat.

With the Anglo-Canadian beef contract cancelled last August and the federal government's export quotas in the United States lifted around the same time, he said, there will be a "fairly heavy" movement below the border but "that will still leave a lot right here in Canada."

**Western Briefs**

CRANBERRY PORTAGE, Man.—Professor John Albright and Dr. C. E. Simon have returned to Chicago, after what they describe as very successful visit to Northern Manitoba. Shooting with a camera they report getting some excellent caribou pictures, as well as some fine shots of ptarmigan. The professor took over 3,000 feet of film.

EDMONTON.—Olay Aaberg of Edmonton produced two nine-bloom marigolds in his garden in Edmonton's west end this summer.

WINNIPEG.—Relics unearthed by modern equipment—bulldozers—may provide further insight into life during the early days of Upper Fort Garry, site of the governor's house, first government house in Manitoba. Bulldozers levelling off the earth at the site of the old fort uncovered fragments of china and clay pipes, a tooth brush and oak planks used to make drains.

FLIN FLON, Man.—Announcement of a gold strike 35 miles east of Sheridan, Man., with samples assaying from \$7 to \$36 a ton was made here by Pete Stewart, field man for the International Mining corporation.

WINNIPEG.—The Dominion government will build a 70-bed tuberculosis hospital at Norway House for Indians of that northern area at a cost of \$100,000. Health Minister Martin announced here.

**Cattle, Hog Population Down**

OTTAWA. — Canada's livestock population is down.

The bureau of statistics reported recently that a survey it carried out in June indicated decreases in each of the main kinds of farm animals.

Cattle a \$970,300, were 2.8 per cent below the June 1947, figure of 9,718,000.

Hogs at 4,463,100, were 18.5 per cent below 1947's figure of 5,473,000.

Sheep and lambs were down to 2,210,000 from 2,707,000 and the number of horses dropped from 2,032,000 to 1,905,000.

Enrico Caruso did not start his singing training until he was 18.

## Canada Has Large Surplus Of Potatoes

OTTAWA. — Canada's expected bumper potato crop, a vexatious problem for agricultural economists, today may help the housewife's grocery bill.

A government source says the large surplus of potatoes this year is making for lower prices on the domestic market. "Canadian housewives should be happy," he said. "They might otherwise have been paying a lot more for potatoes than they are today."

But the problem remains that some part of the 80,000,000 bushels of potatoes expected this year may go unmarketed unless the government can find a new solution to that age-old problem of supply and demand.

Currently, the United States has allowed imports of 3,500,000 bushels a year of table and seed potatoes from Canada at a reduced tariff rate.

But even at the normal higher tariff rate, it has been found that the Canadian product can undersell American potatoes, supported at \$2 a bushel.

A government official estimates that the Canadian potato can sell in the U.S. at \$1.25 a bushel at the reduced 37.5 cents a hundredweight tariff and slightly less than \$2 a bushel at the normal rate of 75 cents a hundredweight.

### LOCAL NEWS

Mrs. S. Milley, of Calgary, is the guest of Mr. and Mrs. Wm. Milley.

Mr. Alex Easton has been visiting relatives in Calgary during the past week.

Mrs. E. Lonsbury and Mrs. A. Easton spent Sunday visiting friends in Fernie.

Mr. John Tarcon was admitted to the local hospital as a patient on Saturday.

Mrs. Steve Penney was admitted to the local hospital as a patient on Monday afternoon.

Mr. and Mrs. S. T. Mitchell, of Lethbridge, were the weekend guests of Mr. and Mrs. J. Goulding.

Idris Haysom travelled with the Medicine Hat Tigers to Bellevue on Saturday and watched his home town team get a thorough trouncing from the smart Bellevue sextet to the tune of 7-3.

Miss Pauline Sprick, of Chilliwack, B.C., is the guest of her parents, Mr. and Mrs. Peter Sprick.

BORN: To Mr. and Mrs. Gerald McIsaac, nee Eileen Kennedy, at Newson's Nursing Home, on Tuesday, October 19, a son.

Mr. and Mrs. James Glendinning, Mrs. J. Richards and Mrs. Harry Boulton have returned home following a two week visit at Calgary.

Mrs. Pete Peragotti and daughter Miss Ralphina returned last Thursday from Rochester where the latter had been receiving medical attention.

Mrs. Jack Moffitt, of Macleod, visited her sisters, Mrs. A. Hayson and Mrs. R. Pattinson, at the weekend. She attended the Bellevue-Medicine Hat hockey game on Saturday evening.

Mr. and Mrs. Charles Heck and family left Coleman on Sunday for Stettler where they have leased a coffee shop business.

Mr. and Mrs. John Bamling returned home last week following several days holiday the guests of their son-in-law and daughter, Mr. and Mrs. Alan Thomson.

The Journal acknowledges with thanks renewal subscriptions received from Mr. Tom Badham, of Calgary who sends best regards to old friends and Mr. F. J. Lote of Blaimore.

Miss Alice Michalsky has left for Seattle where she will visit her brother-in-law and sister. Mr. and Mrs. A. Kropiak and enroute home will travel to Vancouver where she will visit her cousin, Miss Elsie Haddas who is a nurse-in-training in St. Paul's school of nursing.

Mr. Jim Fisher, of Hillcrest, has returned to his home following several weeks as a patient in the Belcher hospital. He reveals that Bill Noton, of The Journal staff, has discarded the iron lung in which he has lived these past five weeks and is now in a bed in the Belcher.

Mr. Steve Rypien went through a back operation at the Holy Cross hospital, Calgary, last Thursday. It is not known just when Steve will have recovered sufficiently to return home.
